* Only the date of filing (§ 1.6) will be the date used in a patent term adjustment calculation, although the date on any certificate of mailing or transmission under § 1.8 continues to be taken into account in determining timeliness. See § 1.703(f). Consider "Express Mail Post Office to Addressee" (§ 1.10) or facsimile transmission (§ 1.6(d)) for the reply to be accorded the earliest possible filing date for patent term adjustment calculations.

NOTE: In the Notice of May 9, 2000 "Patents to Issue within Twelve Weeks after Satisfaction of All Outstanding Requirements, Including Issue Fee Payment and Corrected Drawings" [OG, May 9, 2000, page 39] the PTO pointed out the following:

The USPTO implemented the new patent publication system. . . . Under this current patent publication system, the electronic capture of most of the information to be printed on the patent begins soon after the allowed application is received in the Office of Patent Publication, in advance of the satisfaction of outstanding requirements, i.e., issue fee and drawings. The application file is not available for any further processing during this initial electronic capture process. In order to implement the new publication system efficiently, the USPTO encourages applicants to take steps to minimize disruptions in the printing process. The USPTO encourages applicants to file items such as amendments, information disclosure statements, petitions, and corrected or formal drawings as soon as possible during examination of patent applications instead of during the post-allowance time frame. If papers are filed after allowance, please allow at least six weeks after the Notice of Allowance and Issue Fee Due has been received before inquiring about any post allowance correspondence.

Sir:

**STATEMENT OF REASONS IN SUPPORT OF PETITION FOR WITHDRAWAL
FROM ISSUE**

Applicants have filed herewith a Petition for Withdrawal From Issue Under 37 C.F.R. § 1.313(c)(2). For the record, Applicants wish to state the following reasons in support of that Petition.

Applicants filed the present application with the PTO on June 27, 2003, and were granted a foreign filing license as indicated on the filing receipt issued by the PTO. A Recission of Previous Non-Publication Request Under 35 U.S.C. § 122(b)((2)(B)(iii) was filed on June 24, 2004. On June 25, 2004, Applicants filed a PCT application, which claimed priority from the present application, with the US Receiving Office and designated the European Patent Office (EPO) as the International Searching Authority.

On August 8, 2005, a Notice of Allowance and Fee(s) Due was mailed by the PTO to counsel for Applicants, making payment of the issue fee due not later than November 8, 2005. On September 15, 2004, Applicants paid the issue fee.

On October 14, 2005, counsel for Applicants received an International Search Report and accompanying references for a PCT application which is a counterpart to the present application. Due to docketing and processing time, counsel for Applicants first became aware of the International Search Report on November 15, 2005. Counsel immediately contacted the PTO to ascertain when the patent was expected to issue, and was advised that the issue date was not yet assigned, and was further advised that a petition to withdraw from issue (based on a request for continued examination) could be granted within the remaining time.

Applicants have proceeded diligently with respect to both the present application and the PCT application and respectfully request that their Petition for Withdrawal From Issue be granted.
